Effect of Cold Storage Meat.
Washington, June 15.—The Senate Committee on Manufactures is to have a demonstration of the effect of cold storage meat on human beings. Alfred R. Union, of Armour & Co., told the committee to-day that not to exceed 10 per cent. of his firm's products go into cold storage, and that, therefore, cold storage is not used to effect a corner on meat. He said government inspection cost his establishment \$200,000 annually, due to the rejection of meat from animals purchased abroad.

No Further Investigations.
Washington, D. C., June 15.—The House of Representatives to-day refused to add to the number of investigations it already has under way when a resolution, introduced by Representative Clark, of Florida, calling for an investigation of the government hospital for the insane here, was voted down by a large majority. Representative Foster, of Illinois, defended the institution and its management.

Bill for Commission.
Washington, D. C., June 15.—A bill providing for the appointment of a commission of five, to be known as the Panama-Pacific International Exposition Commission, was introduced to-day by Representative Healin, of Alabama. The chief work of the commission would be in the arbitration of questions that might arise between the exposition company and exhibitors.

Pomerene Demands Prosecution.
Washington, June 15.—In a prepared speech, Senator Pomerene to-day called upon the Attorney-General to undertake criminal prosecution of the officers of the Standard Oil and American Tobacco companies under the recent decision of the Supreme Court in the case of the United States in the cases of the two corporations. He did not ask for action on his resolution instructing the Attorney-General to begin the suits, giving way to Senator Nelson who desired to speak on Canadian reciprocity, but he will press for a vote on it in the immediate future.

Taking up cudgels on behalf of Attorney-General Wickham, whom Mr. Pomerene had criticized, Senator Kenyon declared that the present head of the Department of Justice had achieved more results in his prosecution of trusts than any of his predecessors. He said Mr. Wickham did not require instructions from Congress to do his duty.

Senator Nelson created a diversion when, in applauding Mr. Wickham's work, he declared that the present Governor of Ohio, Judson Harmon, when Attorney-General in President Cleveland's Cabinet, had said the Sherman anti-trust law was a dead letter. Both Senators Pomerene and Lincoln were immediately on their feet to reply.

"That is mere imagination," said the Nebraska Senator. "Mr. Harmon was the official who first breathed any life into the law."

In his speech, Senator Pomerene declared that the Sherman anti-trust law was specific in its authority to press suits against conspirators who restrain trade, and further, that the interpretation of the statute by the Supreme Court was clear.

"With these plain findings of fact and conclusions by the court that this statute has been violated, what reason can be given by any sworn court official for not continuing his fight against them in order to bring them to the bar of justice?" Senator Pomerene asked. "A decent sense of self-respect requires the government either to enforce this law or to repeal it." The Ohio Senator declared that the ruling of the Supreme Court must be followed in the "most vigorous fashion" or the fruits of those victories would be lost to the government and to the people.

The Senator declared that by his resolution it is proposed to declare to the Department of Justice in no uncertain way that the Congress which made him and clothed him with power is cognizant of the fact that the law has been violated; that the court has so declared; that for twenty-one years no respect has been paid by any of these defendants to the majesty of the law, and that, in the judgment of Congress, he ought to begin these criminal proceedings and prosecute, and the resolution instructs him to so do in order that the majesty of the law may be preserved.

AWARD DAM CONTRACT

Council Committee Also Creates Some More Jobs.

The Council Committee on Grounds and Buildings awarded last night to L. Hankins the contract for constructing a reinforced concrete dam for the lake in Joseph Bryan Park, formerly known as Young's Pond, the old stone dam having given way recently.

A concrete inspector was ordered placed on the work at \$75 a month to supervise construction.

The City Auditorium and the exhibits building at the State Fair Grounds were reserved for the meeting of the American Association for Highway Improvement, to be held in Richmond on October 30-31 and November 1, the Auditorium for certain large, public meetings at night, and the exhibits building for demonstrations and exhibitions of road-making machinery.

Contracts were awarded for furnishing the City Hall, jail, armories and other city buildings with fuel to the White Oak Coal Company, for steam coal, and to E. P. Murphy & Co., for long pine wood and anthracite coal.

The committee recommended to the Council the purchase from A. R. Green for \$2,500 of property for enlargement of Riverside Park. A keeper for Washington Square was also recommended at \$75 per month, over the present of Chairman Watkins, who asserted that the buildings on the block had already several janitors, who could easily look after the small plot of open ground, without the employment of a park keeper and force of laborers.

Weddings in Lynchburg.
Lynchburg, Va., June 15.—Wednesday evening at the home of the officiating minister, Rev. Ritchie Ware, pastor of the First Christian Church, Miss Willie Blanche Travis, daughter of Andy Travis, was wedded to Alvin B. Ottlinger.

Wednesday evening at 6:30 o'clock at St. Paul's Episcopal Church, Miss Christine McRae, who, for several years has been a teacher at the Rivermont, was wedded to Preston Cocke, of Chatham, the ceremony being performed by the Rev. C. O. Pruden, of Chatham. D. L. McRae, of Macon, Ga., father of the bride, gave her away, and Charles Cocke, of Bon Air, was the best man.

Miss Travis was Miss Virginia Hall, of Chatham.

Mr. Cocke is in charge of a Federal farm experimental station at Aceton, Halifax county, and they will reside at Chatham, after spending their honeymoon at Mountain Lake.

BANKERS MEET AT HOT SPRINGS

President Miller Delivers Annual Address, and Secretary Makes His Report.

Hot Springs, Va., June 15.—Two hundred bankers on their way to attend the annual convention of the Virginia Bankers' Association here were held up by a train wreck for three hours this morning between Charlottesville and Clinton Forge. The convention was not opened until later in the afternoon, with prayer by Rev. John Garlick Scott, of Hot Springs.

President J. W. Miller, of Pulaski in his annual address, dwelt upon the prosperity of the State and the large amount of business transacted by its banks.

N. P. Gatliff, secretary to the association for the past ten years and through whose efforts its membership has been largely augmented, reported 320 members. Gatliff was no longer continue his secretaryship, having accepted the position of assistant cashier of the Chatham and Phoenix National Bank of New York. Other reports from the treasurer, Julian H. Hill, of Richmond, and the auditing committee were received, following which adjournment was taken until to-morrow afternoon.

Around the Hotels
Among the visitors at the Jefferson in attendance at the meeting of the Association of Surgeons of the Norfolk and Western Railway is Dr. A. G. Crockett, of Max Meadows, a candidate for election from the Fifth Senatorial District. Dr. Crockett was a sacrifice candidate for the House in 1909, and his friends think he is line for election from what is now regarded as a safely Democratic district, since the organization perfected in the Ninth Congressional District last year. He is a well known physician.

Another visitor to the same meeting is Dr. M. W. Jewett, of Ivanhoe, who has the reputation—and it is said the papers to prove his claim—of having been the youngest soldier of the Confederate States.

W. W. Sproul, of Staunton, a member of the State Board of Agriculture, was in the city yesterday. He thinks the dairy will prove highly successful. However, the drought during its first season of existence will hamper its usefulness for a time, since a large part of its efforts were directed to the growth and demonstration of grasses.

J. M. Curtis, treasurer of Newport News, was here yesterday on his way to Washington to attend the funeral of his brother-in-law, Dr. Frederick D. Power, who was President Garfield's pastor. Dr. Power was a native of York county, Va.

ATTACHES BONDS
Auditor Donohoe Would Protect State's Interest in Trust Funds.

A petition was filed yesterday in the City Circuit Court in the chancery suit of S. R. Donohoe, Auditor of Public Accounts, against J. P. Robinson, treasurer of Alexandria county, and his bondsmen, the Virginia Safe Deposit and Trust Corporation, seeking to attach the sum of \$10,000 in bonds, on deposit with the State Treasurer, belonging to the Virginia Safe Deposit and Trust Company. Argument on the petition will be heard later.

The papers recite that Treasurer Robinson had in his hands certain funds of the State of Virginia, deposited with the Virginia Safe Deposit and Trust Corporation, which concern was also his bondsmen. The trust company failed, and the State was left a bondsmen on whom a debt was laid back. The trust company also did an insurance business, and in that connection had made the deposit of certain bonds, with the State Treasurer in the sum of \$10,000, as required by the Commissioner of Insurance, and it is this sum that Auditor Donohoe seeks to attach as property of the trust company, against which the State has a double claim.

The petition is in the name of J. K. M. Norton and Howard W. Smith, receivers of the Virginia Safe Deposit and Trust Corporation, in chancery.

MORMON CHURCH HEAD TO TESTIFY

(Continued From First Page.)
how much he was not willing to estimate.

Mr. Palmer was a member of an American Sugar Company's committee, appointed to invest in beet sugar refineries.

"Mr. Willett, representing a trade paper, made a trip through the West," explained Mr. Palmer, "and when he came back he told me that the beet sugar refineries were making sugar at less than we thought they could."

"Mr. Palmer added that Mr. Willett was sent out to 'round up' the beet sugar people. Mr. Cutler came on from Utah, and as a result of the 'round up' the beet purchase was made."

"It was a big question in those days," added Mr. Palmer, "whether we could get the beets grown, and I was in favor of purchasing from the Mormons first, because I thought that the Mormons could control their people."

"Oh, there has been a statement that there was an alliance between the American Sugar Refining Company and the Mormon Church," said Mr. Cutler. "Tell us about that. Wasn't Cutler a bishop or something in the Mormon Church?"

"I don't know. We dealt with Mr. Cutler, and he was a very nice man. We will believe that. Wasn't Joseph P. Smith, the head of the church, consulted?"

"No, not that I know of; we dealt with Cutler."

GIRL LED CLASS
Miss Weisger stands highest at John Marshall High School.

Owing to a statement, which was somewhat confusing, Miss Louise Page Weisger did not receive the very high credit due her in the report of the John Marshall High School commencement exercises held yesterday morning.

The highest class standing was made by Miss Weisger, who won the first scholarship awarded to girls. Weisger did not receive the highest among the boys of the class, but Miss Weisger made the best record of all. She is therefore entitled to full honor. The honors were splendid and praiseworthy achievement.

Woman's Happiness
The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers, which contains much valuable information, and many suggestions of a helpful nature.

CONVEYED TO CITY
Ford's Hotel Transferred, but City Won't Operate It as Hotel.

A deed of bargain and sale was recorded yesterday in the Chancery Court, transferring the old Ford Hotel property to the city for \$90,000, the price agreed upon in the acquisition of the entire block having cost the city \$165,000. The sale, previously confirmed by Judge Grinnan, transfers the property from the Ford estate, which has long been in litigation. One of the heirs to the estate has given notice of an appeal to Robert H. Talley, David Meade White and Henry C. Reilly were special commissioners in the Ford estate proceedings for the transfer of the property, which fronts 135 feet 11 inches on Eleventh Street, just opposite the City Hall, and 111 feet on both Broad and Capitol Streets. The old building has been condemned, and it is expected that the city will order its removal as soon as the property passes into its control.
